## Transfer Guide for Penn State Harrisburg / Harrisburg Area Community College

Harrisburg Area Community College (HACC) and Penn State Harrisburg (PSH) have established this transfer guide so that students have a clear idea about the coursework that they should complete in order to best transfer into a Bachelor's Degree in Science (General or Life Science Option) at Penn State Harrisburg. For a B.S. in Science a minimum of 124 credits is required.

HACC students enrolled in the Dual Admission Program can follow the degree requirements in effect at the time of dual admission as long as the student has maintained continuous enrollment at HACC. Information about the Dual Admission Program is available from the Transfer Office at HACC.

### Admission Requirements:

1. Before transferring, HACC students generally complete most of their first two years of college. A minimum of 18 credits are required to be considered for transfer.
2. Students are also required to have a minimum cumulative grade point average of 2.0 (on a 4.0 scale) *GPA's are recalculated to include all courses and grades, including all repeated courses, from all colleges/universities previously attended.*
3. Students are required to have completed MATH 104 at HACC or trigonometry in high school.

Apply online at <http://admissions.psu.edu/>

### Recommendations/Notes:

1. Although not required for transfer admission, students who graduated from high school in 2001 or later and have not completed the required two high school foreign language units must fulfill this high school requirement by completing one semester of a college level foreign language. This class is considered a high school foreign language requirement and cannot be counted towards the completion of a baccalaureate degree.
2. Students are encouraged to complete the HACC equivalent of the Entry-to-Major requirements with a grade of C or better. For the Science major this includes: MATH 140 and at least two of the following courses: BIOL 110, CHEM 110, PHYS 211, or PHYS 250.
3. Students are strongly advised to complete 3 credits of United States Cultures (US) and 3 credits of International Cultures (IL) within their general education requirements. These courses are listed within the General Education Table below. For this major, only 3 credits of either US or IL are required since an upper division requirement will fulfill either a US or IL equivalent.

The evaluation of all other prior college work is done on an individual basis by the Admissions Office at Penn State Harrisburg. Students should work closely with their academic adviser at HACC and with Penn State Harrisburg for the most up-to-date information.

## GENERAL EDUCATION TABLE

*This check sheet is provided as a transfer guide only. Official transfer of credits is provided by Penn State University. HACC and PSH work cooperatively in a timely manner to provide this information; however, courses are subject to change. Listed below are the HACC courses that meet the General Education requirements for Penn State Harrisburg majors. This table may not be valid for other Penn State locations and is NOT all-inclusive. Students should consult PSH Admissions when determining transferability of HACC courses not listed on this table.*

<b>ARTS (GA) 6 credits</b> <span style="float: right;"><i>(All courses with an asterisk (*) are HACC Core A)</i></span>
